Report	
Academic Year	2023 – 2024
Name of Activity	Together Against Cancer: National Cancer Awareness Day Program
Date of Activity	07/11/2023
Organized by	Fitness Club, Mangalmai Institute of Engineering and Technology, Greater Noida
Resource Person	Prof. (Dr.) Chetan Khemraj
Objective	<ul style="list-style-type: none"> <li>• Raise Awareness: Increase public awareness and understanding of cancer, its risk factors, prevention, early detection, and available treatment options.</li> <li>• Provide Information and Resources: Disseminate accurate, up-to-date information about various types of cancer, their symptoms, and available support services for patients and their families.</li> <li>• Empower Survivors: Celebrate and support cancer survivors, highlighting their stories of resilience and survival as a source of inspiration and hope.</li> </ul>
Brief Report	<p>The Wellness Club at Mangalmai Institute of Engineering and Technology (MIET) celebrated <b>National Cancer Awareness Day</b> on November 07, 2023, with the aim of raising awareness about the Cancer, as we all know, is a disease that doesn't discriminate. It affects millions of lives worldwide, regardless of age, gender, background, or ethnicity. The impact on individuals and families is immeasurable. But today, we are not just here to lament the challenges cancer poses; we are here to stand united and declare that we are "Together Against Cancer."</p> <p>One of our primary goals is to raise awareness. Knowledge is power, and by better understanding cancer—its risk factors, prevention, and early detection—we empower ourselves to take control of our health. Throughout the event, we conducted informative sessions and discussions, shedding light on various aspects of cancer. This was the first step in becoming more informed and responsible citizens.</p> <p>The importance of regular screenings and self-examinations cannot be overstated. Early detection saves lives, and by providing resources and guidelines, we aim to encourage individuals to take a proactive approach to their health.</p> <p>After the session, a quiz based on cancer awareness was conducted. Students from 1st to 4th year participated with great enthusiasm, with a total of 132 students taking part. The detailed analysis report of the quiz is attached.</p> <p>Following the quiz, as part of our outreach initiative, the students were taken to Surajpur, Greater Noida, to further spread cancer awareness. The outreach aimed to engage the local community in interactive discussions, emphasizing</p>

	the importance of early detection and prevention in the fight against cancer.
<b>Outcome</b>	The "Together Against Cancer: National Cancer Awareness Day Program" is not just an event. It is a movement. It is a reflection of our collective power to make a change. Cancer is a formidable adversary, but when we stand together, we are more formidable still. I encourage all of you to continue your efforts beyond today. Together, we can make strides in the fight against cancer, and our commitment to a cancer-free tomorrow remains unwavering.
